Change log from selected data submissions

We are in the process of creating a new road atlas for **Southern and Eastern Africa**. Whenever our team works on such a project you can expect a lot of map clean-up and standardization to happen. We identify areas where we need to clean up or add data. Our POI content team is also working through this entire region to bring new POI into the database, mapping services per town. You will see in the data stats that we had significant POI growth in Eastern Africa and in particular with regards to **accommodation** and **food & drink** categories.

We have gain been assisting with **fuel stop surveys** which resulted in a 10.7% growth in our fuel stop category.
