## **Change log from selected data submissions**

Our research for the new **Zimbabwe** guide book is coming to a close and most of the new data we collected were already included in 23.10, however we continue to update road and point attributes which do not reflect in the statistics of this document.

We launched a project to update the landmarks of the **Great Karoo** and most of the new points in this release were as a result of this project. This project is in preparation for a future map of this area.

We are also busy with the update of our Botswana guide book and expect to clean up new and closed places of accommodation in this country. Road infrastructure for Botswana is up to date with the latest developments in the country.
